• Q2 Review and Q3 preview – by objective:

1. Bring clean water, sanitation, and hygiene education to 116,225 people through existing infrastructure and regular monitoring, including at least 14,310 through new infrastructure and rehabilitation projects.

2. Pilot novel approaches to increase capacity of local communities to operate and maintain infrastructure for future generations, as well as explore how WASH can be a platform for broader impact.

3. Establish and implement an FY17-FY20 strategy that positions TWT to scale its impact. Modifications to FY17 objectives anticipated following Q2 strategy development.

4. Improve operational efficiency and capability through increasing staff technical capacity, standardizing work processes, and greater utilization of cloud-based systems.

5. Seek funding from new sources to increase revenue by 35% from FY16 and provide a more diverse portfolio to support greater expansion in FY18.

• Organizational priorities for next quarter
Headlines

- **On track:** No significant deviation from approved budget in revenue or expenses, nor in program/fundraising activities.

- **Good on cash:** Grants came in and cash position is strong.

- **New pilots ready to go:** preparation is over, we have three promising sustainability pilots and the staff to implement them starting now; we also have one school pilot with a proposal submitted to fund it.

- **Proposals to new donors out the door:** $230 K in proposals submitted to three institutions.

- **Outreach to hit next gear:** For individuals, still have ~$160 K to raise to fund FY17 budget. For institutions, need to build our visibility and credibility.
FY17 Objectives

1. Bring clean water, sanitation, and hygiene education to 116,225 people through existing infrastructure and regular monitoring, including at least 14,310 through new infrastructure and rehabilitation projects.

2. Pilot novel approaches to increase capacity of local communities to operate and maintain infrastructure for future generations, as well as explore how WASH can be a platform for broader impact.

3. Establish and implement an FY17-FY20 strategy that positions TWT to scale its impact. Modifications to FY17 objectives anticipated following Q2 strategy development.

4. Improve operational efficiency and capability through increasing staff technical capacity, standardizing work processes, and greater utilization of cloud-based systems.

5. Seek funding from new sources to increase revenue by 35% from FY16 and provide a more diverse portfolio to support greater expansion in FY18.

Implementation is on track, with minor adjustments to project plans. New projects beyond this plan will depend on incremental grant funding. Impact metrics will be added as targets in the future.

*NOTE: Reduced from 80 to 74 as finalized sustainability pilots.*
2. Pilot novel approaches to increase capacity of local communities to operate and maintain infrastructure for future generations, as well as explore how WASH can be a platform for broader impact.

- Q1: Develop relationships with peer organizations and researchers to inform development of new program concepts
- Q1: Conduct field research to inform program design decisions
- Q2: Develop 3-4 program concepts and begin staff training:
  - 2-3 focused on sustainability
  - 1-2 focused on increasing impact
- Q3: Begin implementation.
- Q4: Continue implementation in accordance with project plans, and develop partnerships to scale up promising approaches and/or refine program concepts for further testing

Completed program design for three village sustainability pilots and one school program. Implementation set for sustainability pilots, and pending funding decision for school.
3. Establish and implement an FY17-FY20 strategy that positions TWT to scale its impact. Modifications to FY17 objectives anticipated following Q2 strategy development.

- Q1: Conduct meetings with SMEs across NGO, government, research, and funder spaces
- Q1: Get staff input on possible strategic directions
- Q2: Board strategy discussions, get SME feedback on strategy memo, finalize strategy, and update FY17 operational objectives as necessary
  - Strategy summary completed, but longer strategy memo still needs a final round of board review and an update of FY17 objectives as necessary
- Q3: Communicate strategy internally and externally, and begin implementation
- Q4: Continue implementation in accordance with project plans

Emerging clarity on strategy and implications for internal priorities, need to finalize it and communicate it with staff to build clarity and alignment.
4. Improve operational efficiency and capability through increasing staff technical capacity, standardizing work processes, and greater utilization of cloud-based systems.

- **Q1**: Roll out new systems and policies/procedures for finance, human resources, and CRM.

- **Q2**: Roll out new visualizations for M&E data for internal program management and external communication.

- **Q2**: Complete analysis of staffing needs and begin implementation plan to add necessary capacity.

- **Q2**: Implement new project management and inventory management systems and procedures.

- **Q3**: Identify and implement performance management system and procedures.

- **Q4**: TBD

---

Very happy with new additions to team, bring excellent expertise and international NGO experience. Rolled out Impact metrics on website with charts, but aim to provide a more dynamic representation of quantitative data (benefits and costs) in Q3. Implemented Asana for project management, but utilization is not to standard. Working with team to improve for management of new pilots.
5. Seek funding from new sources to increase revenue by 35% from FY16 and provide a more diverse portfolio to support greater expansion in FY18.

Initial budget assumed even effort across fundraising streams, but focused on institutional asks (necessary to submit early in year to get a chance of earning this fiscal year). Doubled revenue ask goal for new donors. Impact will be mostly clear in Q3. Behind schedule with upgrades: renewals/upgrades major point of emphasis Oct-Dec. Also will be building inroads with new institutional prospects.

Q2 Financial review

We are in a much stronger position than we anticipated due to much lower expenses than anticipated. This is due in part to conservative budgeting (to minimize the likelihood of cash flow problems), but also errors in the Uganda budget. Corrective action in progress. Our FY16 audit is near completion and that may change the accounting of some revenue (e.g., what is counted in FY16 vs. FY17 -- will not change our actual financial position.)
Q3 Preview: organizational focus areas

- Implementation. New sustainability pilots starting in October and school pilot starting (hopefully) in December. Team will be busy.
- Share our story and plans with existing and new people who can contribute now and could leverage a lot of support if they were ‘bought in.’
- Share our plans and pilots with institutional prospects and peer organizations to build visibility.
- Cultivate at least one potential new board member.
- Begin FY18 planning.
